COMPACT VERSATILITY

ULTRA COMPACT FOOTPRINT
INTUITIVE MODULAR DESIGN
BAGGAGE SELF TAGGING
ANCILLARY PAYMENTS
ACCESSIBILITY COMPLIANT
WEIGH SCALE INTEGRATION
EXTENSIVE BRANDING OPTIONS

The V2 is a versatile self-service platform delivering core self service capabilities in an ultra compact footprint. Thirty-percent smaller than the flagship V1, the V2 is ideal for small-to-mid-sized terminals where space is a premium and standard check-in capabilities are more than adequate. The V2 is also available as a battery-powered mobile kiosk and/or agent-driven, service desk variant for maximum deployment flexibility.

OTHER MODELS

VELOCITYmobile

Designed for anywhere, any time deployment, the V-Mobile adds a retractable wheel base as well as an advanced battery and wireless/cellular connectivity options. The V-Mobile can operate cablelessly for up to 12 hours delivering scalable service capability on-demand.

VELOCITYdesk

Available with a keyboard attachment and additional passenger-facing display, the V-Desk is a battery-powered, agent-driven, service desk using the V-Mobile platform. The V-Desk is the ultimate tool when facing seasonal capacity peaks, as well as responding to disruption and irregular operations.
